

AQUACULTURE LICENCE

Fisheries Act 1988

Licence Holder

TAAU AUSTRALIA PTY LTD
PO BOX 712
KARAMA NT 0812

Licence Details

Licence Number: C1/519
Valid From: 01 July 2011
Expires: 30 June 2012

Location

SECTION 2525 SOUTHPORT RD HUNDRED OF CAVENAUGH NT 0837

Conditions:

1. CULTURE SPECIES

The licence entitles the licensee to culture:

- i Spirulina; being of the scientific name *Arthrospira maxima*

2. AREA OF OPERATION

The licence shall be operated only within the area at Section No: 644, Hundred of Cavenagh, Southport Road, Northern Territory.

3. WATER DISCHARGE

Ponds shall be designed so as not to overflow or spill. A back-up dam or bund structure will be constructed to catch water in excess of that anticipated by rainfall records which may overflow or spill from ponds.

The site shall be managed to prevent soil erosion and drained to prevent standing water in which mosquitos may breed.

4. WATER EXTRACTION

Extraction of water will be in accordance with Bore Construction Permit No. 8867 & 8868

5. DEVELOPMENT CONSENT

Development of the area of operation will be in accordance with Development Permit No DP96/0597.

6. AQUACULTURE OPERATIONS

construction and operation of the farm shall be in accordance with the detailed layout and operational procedures specified in the Aquaculture Licence Application received on which the licence was issued.

Any alterations to the farms design or operation must be approved by the Director of Fisheries prior to construction or alteration.

7. FISHING GEAR

The licensee is entitled to be in possession and use fishing gear as required to undertake the bona fide aquaculture activities as specified by this licence and conditions. Gill nets may only be used for the purpose of catching, sorting, holding or protecting from predation the farm stock, at the approved location to which this licence applies.

8. MOVEMENT AND SALE OF LIVE FISH AND AQUATIC LIFE

The movement of live farm stock to or from the approved location must be in accordance with s16 of the Fisheries Act and the Fisheries Policy for the Translocation of Live Aquatic Organisms into and within the Northern Territory for Commercial Aquaculture.

9. RELEASE OR ESCAPE OF FISH OR AQUATIC LIFE

All reasonable precautions must be taken by the licensee to prevent escape of farm stock held as part of the farming operation. Any release or escape of farm stock must be reported immediately to the Director of Fisheries.

10. DISEASE REPORTING AND CONTROL

The licensee, or any person assisting the licensee must, on noticing any significant mortalities or signs of disease, report the incident to the Director of Fisheries immediately.

Only drugs or chemicals permitted for use in aquaculture under Commonwealth or Northern Territory legislation may be used

The licensee is not permitted to be in possession of or use imported uncooked crustaceans at the approved locations of the licence other than for human consumption.

11. AUDIT

From time to time the Director may authorize an audit of:

- a) Compliance with licence conditions;
- b) The environmental status of the farm site and its surrounds; and
- c) Health and quarantine status of stock held at the farm.

The proponent will facilitate any audits so authorised and, if required, comply with any instructions given by the auditor.

12. RETURNS

Bi-annual Aquaculture Statistical Returns are to be submitted to the Director of Fisheries within 28 days of the following dates: 31 December or 30 June.

These conditions may be amended as required by the Director.

Senior Licensing Officer
As delegate of the Director of Fisheries
